

The Stories We Tell: Sharing Stories (June 3)

Final Class, June 3 – Sharing Your Story: an informal opportunity to share and hear from others in the class. I encourage you to consider and ask the questions above of yourself and each other.

“A person who listens empathically and responsively as someone else tells his or her story is able to validate the storyteller and, through questions and musing, arouse that individual’s curiosity so he or she will consider alternative ways to imagine his or her story.” (Curt Thompson, *Anatomy of the Soul*)

Questions to reflect on as you share your story:

- **Before you came to faith in Jesus, what was your life like and where did you seek answers?**
- **What were the circumstances of your life that caused you to consider and trust in Christ?**
- **What truth of the gospel story has particularly impacted your faith?**
- **Are there any internalized messages that have made it hard to trust God?**
- **How have you seen God meet your needs or impact the story of your life?**
- **Are there any defining moments or recurring patterns that impact the way you see life?**
- **Are there any current challenges where you are trusting God to work?**
